

**Barry C. Bolding**  
**Vice President, Marketing and Business Development,**  
**Cray Inc.**

Barry Bolding serves as one of Cray's senior executives helping to manage the collaborative teamwork necessary to bring all aspects of the CORAL program to successful completion. Barry brings years of strategic development experience to the CORAL project and is a key member of the Intel, Cray and Argonne collaboration leadership team.

At Cray, Barry is responsible for the company's corporate and product marketing as well as business and corporate development. He was named a vice president in 2009 with responsibility for product management, corporate and product marketing for high performance computing (HPC) solutions, and storage and data management.

Prior to this assignment he served as Cray's director of product marketing, analyzing future products and developing long-term strategies.

He first joined Cray Research in 1992 and later worked with Network Computing Services and IBM, returning to Cray in 1999. At IBM he served as a benchmark specialist, team leader and manager in the company's worldwide technical deep computing team.

Over the course of his career, Barry has been involved in a variety of challenging assignments, working with key customers in government, academia and commercial markets and holding positions as a scientist, applications specialist, systems architect and presales product and marketing manager.

He holds a BS in chemistry from the University of California, Davis and a PhD in chemical physics from Stanford University.
